The Scriptures clearly differentiate the two seeds that were planted in the "garden" of the Woman, Eve. Seth was a son of Adam who was a son of God. He possessed the same attributes of God, but "Cain, who was of that wicked one" (i.e., Satan who viciously alienated him through the Serpent) had the evil attributes of Satan. These marked differences were manifested in their descendants.

Ground Cursed - Second Time

Genesis 4:6

The mark when God put upon Cain was the increase in his body size. This provided him the capacity to defend himself from any one who might attempt to kill him because he was responsible for the curse God had put on the ground which robbed it of its strength to yield a good harvest of crops. Cain became a fugitive and a vagabond because of his pursuers.

Rainbow in the Cloud — Sign of God's Covenant with Noah that He would never again destroy the earth by flood.

All pure Serpent people were destroyed in the Flood. None was carried over the Flood.

The Flood lasted for 1 year and 10 days. 4 couples went into the Ark and 4 couples came out.

Any woman pregnated by Serpent man prior to the Flood was ruled out. In every dispensation the Trail of the Serpent is evident in the hypocritical approach of evil and wicked people in their worship of false gods, idols and dogmas. It all started with Cain. Such are religious Serpent Seeds.

THE FLOOD was universal.

Genesis 7:11b-12

[Psalm 104:1-9]

"...the same day were all the fountains of the great deep broken up, and the windows of heaven were opened. And the rain was upon the earth forty days and forty nights."

Genesis 7:23

[2 Peter 3:5-7]

PRESENT HEAVEN AND EARTH — CLIMATIC

O, Mighty God

Creator...

O, Lord God...

THOU GREAT LIGHT OF LIFE...

Note: Earth's surface is now 75% covered with water, a result of the breaking up of the great fountains of water which smote the earth. Together with the tilting of its axis, the Present Earth experiences different, and sometimes extreme, climatic changes. The spinning of the earth on its lifted axis causes just enough wobbles to slow down its revolution around the Sun to 365.25 days.
